Solution platform of the sector

Summit of Technology, 3T

International Metal Working, Mould, Automation and Welding Technologies Fair 3T 2016 which is the meeting of the metal processing industry in Izmir will be held 14th time by Yağmur Fuarçılık between 10th 13th March at "fuarizmir" which is the Turkey's new and modern exhibition area.

3T Fair which brings together domestic and foreign companies, provides a solution not only from Aegean industrialists, all of the sector-related industrialists needs from domestic and abroad. Yağmur Fuarçılık organizes free bus services to attract direct investors and demanding companies to the 3T Fair from the cities that developed industries. Provided that the purchasing committee meeting with exhibitors from different cities of Turkey like Konya, Adapazarı, Kayseri, Adana, Gaziantep, Eskişehir, Bilecik, Çanakkale, cooperation with Metal Goods Chambers, Chambers of Commerce and Industry and various Professional Chambers.

3T 2016 Technology Summit Visitors had the opportunity to meet with new technologies at the same time the companies from many countries of the world so time and energy waste will be disappearance for new projects investments and researches. In addition, they can compare all systems and machines in the prior art indicated and prices.

3T Fair offering all technologies at the same time in the world about machinery, mold automation and welding, also it is a very important platform for companies that want to give the right decision for investment.

If you want to become a part of this important meeting of the metalworking industry and located among hundreds of industry-leading exhibitors and if you do not want to stay behind the competition do not miss the 3T Fair 2016.

The meeting point for leading brands

3T Fair is the one of the exhibition that the largest international fair in the metal processing technology sector in Turkey, the last organization that held in 2015 has participated 252 companies from 17 different countries. There were also the market leaders in their area together with local participants were USA, Netherlands, Israel, Taiwan, Korea, Germany, China, Italy, England, Switzerland, Japan, India, South Korea, Czech Republic, Luxembourg and Austria. Automation-axis machine with the latest technology and innovations, equipment and devices fair accompanied by a full innovation was the scene of the event. Also the visitors see the latest technology, brand and product variety for many companies in the same product group; technology, they have the opportunity to be able to compare the design and price.

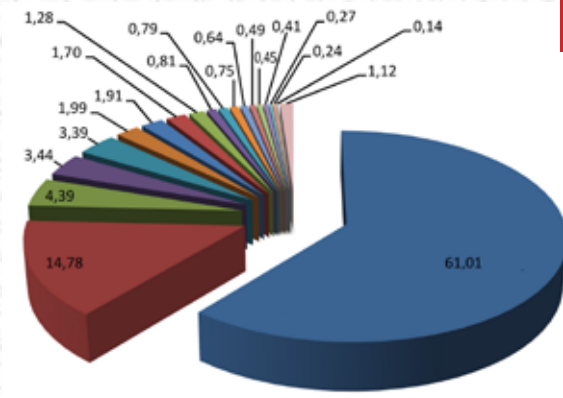

3T Fair provided opportunities to the participants connection and sales, potential sales, portfolio development, strengthening existing customer relationships, brand building and delivering innovations with directly publicities. 3T 2015 Fair is one of the most important fairs in metalworking, mold and automation area in Turkey, in 4 days visited the exhibition 11828 professionals from 23 different countries, 44 cities and 32 different sectors.

Visitor Statistics 2015

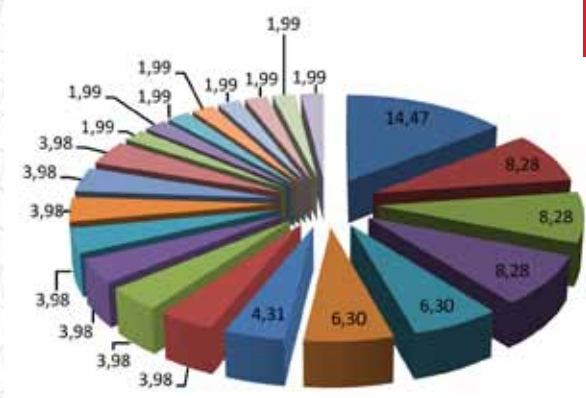

Distribution of according to the cities

- İzmir
- Manisa
- Aydın
- İstanbul
- Bursa
- Konya
- Balıkesir
- Ankara
- Denizli
- Burdur
- Adana
- Isparta
- Kütahya
- Eskişehir
- Uşak
- Sivas
- Kocaeli
- Muğla
- Afyon
- Other

Total Visitor Number 11.526

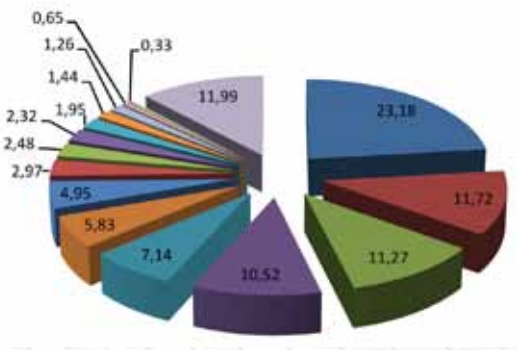

Distribution of according to the countries

- Germany
- Algeria
- Kosova
- Greece
- Bulgaria
- Egypt
- Holland
- Iraq
- Spain
- Switzerland
- Libya
- Tunis
- Jordan
- U.S.A
- France
- England
- Japan
- Nigeria
- Russia
- Slovakia
- Sudan
- Syria

Total Visitor Number 302

Distribution of according to the positions

- Company Owner
- Production Department
- Director
- Engineer
- Sales and Marketing
- General Manager
- Administrator
- Quality Control and Assurance
- Purchasing
- Foreman
- Board of Directors
- R & D
- Factory Manager
- Business and Product Development
- Accounting-Finance
- Other

PRODUCT GROUPS ON EXHIBIT

METAL PROCESSING

- CNC and Metal Working Machines
- Sheet Working Machines
- Surface Processing Machines
- Metal Working Presses
- Welding Machines
- Electrical Motors and Reducers
- Cutting Tools / Holders
- Ironmongery and Hand Tools
- Dye and Heat Treatment Furnaces
- Compressors and Pumps
- Generators
- Industrial oils
- Lifting, Carrying and Stacking Equipment
- Nanotechnology
- Metal Scrap and Recycling Machines

MOULD

- CAD/CAM Systems
- Sheet Metal Moulds
- Plastic Injection Moulds
- Metal Injection Moulds
- Vacuum Moulds
- Forged Moulds
- Casting Moulds
- Rubber Tire Molds
- Thermoplastic Moulds
- Precise Cutout
- Standart Mould Equipments
- Molding Steels, Mould Materials

INDUSTRIAL AUTOMATION

- Hydraulic and pneumatic Systems
- PLC, DCS, SCADA and Industrial PC's

- Testing, Measuring and Controlling Instruments
- UPS (Uninterrupted Power Supply)
- AC, DC, Servo Motors and Speed Control Units
- Control Valves
- Robotic Systems
- Flexible Mounting Systems
- Industrial Security Systems
- Electrical, Electronic Panelboards
- Automatic, Electronic Systems Control Panels
- Autom. Weighing, Dosing and Bagging Sys.

SUB-INDUSTRY

- Forming Machining Products
- Sheet Metal Forming Products
- Metal Stamping Products
- Metal Injection Products
- Heat Treatment and Casting Products
- Powder Metallurgy Products
- Surface Transactions

- Rubber Forming Products
- Electronic Products and Equipment
- Compressors, Electric Motors
- Connectors and Sealing Elements
- Process Control Systems
- Pumps and valves
- Industrial services
- Metal and steel industry, raw materials and semi-finished products
- Pipes and tubes, metal and steel, special alloys
- Non-ferrous metal products

JOB SECURITY; PERSONAL PROTECTIVE EQUIPMENT

JOINING, WELDING AND CUTTING TECHNOLOGIES

- Welding and cutting machines, equipment
- Welding Automation Systems
- Welding and filling materials
- Fiber Laser Systems
